## **NKT Photonics to open North American subsidiary**

Birkerød, Sep 1<sup>st</sup> 2009 – NKT Photonics A/S announces that it will establish a wholly owned subsidiary, NKT Photonics Inc., in the US to serve the growing North American market.

“NKT Photonics has a large base of industrial and academic customers in the US and Canada, spanning the whole product range from bare crystal fibre to SuperK white light lasers. This expansion is to address the great demand and to offer an even better service to our valuable customers. We have done this successfully before in central Europe by opening NKT Photonics GmbH in Germany four years ago” said Chuong Tran, VP of Sales and Marketing. “NKT Photonics Inc. will entirely focus on providing sales support for new customers and forthcoming public tenders in North America as well as technical support for already deployed NKT Photonics products in this geographical region.” he concluded.

The offices of NKT Photonics Inc. will be located in Morganville, New Jersey and is officially opened on September 1<sup>st</sup> 2009 to handle all North American customers of NKT Photonics products. The address of NKT Photonics Inc. is as below

### **NKT Photonics Inc.**

1400 Campus Drive West  
Morganville, NJ 07751  
USA

### About NKT Photonics A/S

NKT Photonics A/S designs and manufactures commercial and industrial class specialty microstructured fibers and high power fiber amplifiers. The company also designs and manufactures fiber-based industrial systems such as white light lasers and ultra precise DFB fiber lasers. The mentioned products are produced under the brand names CRYSTAL FIBRE, aeroLASE™, SuperK™ and KOHERAS™. These systems are already commercially deployed in material processing, bio-photonics, metrology, optical sensors, coherent communications, test and measurement, high resolution spectroscopy and LIDAR markets. NKT Photonics A/S is wholly owned by the Danish industrial conglomerate NKT Holding A/S.
